

Somerset Homeless Strategy 2013- 2016

Introduction

This Homeless Strategy for Somerset sets out the strategic goals for the five Somerset Housing Authorities. Our ultimate goal is to ensure people have settled homes which enable them to build settled lives. The five local authorities are:-

- Mendip District Council
- Sedgemoor District Council
- South Somerset District Council
- Taunton Deane Borough Council
- West Somerset District Council

The 2002 Homelessness Act has placed a duty on Local Authorities to develop a Homeless Strategy and to renew this every five years. This is the second Somerset wide Homeless Strategy. This strategy covers the period of 2013 to 2016, and has been developed taking into account the national and local issues. The strategy identifies three goals that will drive forward the homelessness agenda in the coming years in Somerset.

The three goals are

Goals	
Goal 1	Reduction and prevention of homelessness
Goal 2	Provision of appropriate advice, accommodation and support if a crisis occurs
Goal 3	Maximising effective partnership working to provide cost effective and responsive services

What is Homelessness?

Homelessness covers a wide range of circumstances. You do not have to be sleeping on the streets to be classed as homeless. You might also be homeless or threatened with homelessness if you are:

- Temporarily staying with friends or family
- Staying in a hostel or bed and breakfast
- Living in very overcrowded conditions
- At risk of violence or abuse in your home
- Living in poor conditions that affect your health
- Living somewhere that you have no legal right to stay in e.g. a squat
- Living somewhere that you cannot afford to pay for without depriving yourself of basic essentials
- Forced to live apart from your family because your accommodation is not suitable

Current Situation

The Government's desire to reduce public spending has resulted in major changes to welfare benefits and has ended the offer of permanent social housing tenancies for some new tenants. All of these changes are likely to have a major impact on homelessness.

Public Spending Cuts- local authority funding is being reduced with all Councils in Somerset planning and implementing cost cutting measures. However, although the Homeless grant funding will remain stable during the spending review it is no longer ring fenced. This may mean not all individual Housing Options Services will receive the full amount of the grant from their own Local Authority.

Welfare Reform-

- **Uprating and increasing the non-dependent rate** from April 2011 is likely to place pressure on households with adult children still living at home who cannot contribute towards household expenses
- **Capping the Local Housing Allowance (LHA)** is likely to make applicants looking for private sector letting less attractive to landlords.
- **Capping the total benefits** to a household at no more than the national average wage is likely to impact on larger families and any reduction in benefit will be removed via a reduction in housing benefit leaving a potential shortfall in rent.
- **Limiting Housing Benefit (HB) payments for single people under 35** to the shared room rate. This means they will be required to share accommodation. (Up from 25 will make it harder to place young single people in private rented accommodation).
- **“Bedroom Tax” (add correct term)** The Government has introduced size limit rules into Housing Benefit for working age people renting from a registered housing association or other registered social landlord. The rules restrict the size of accommodation you can receive Housing Benefit for based on the number of people in your household. Tenants will be expected to find the additional money or be encouraged to downsize by their landlords. This is leading to an increase in housing need for one and two bedroom properties
- **The move towards Universal Credit (UC)** will end Housing Benefit payments being made directly to landlords, making benefit claimants potentially less attractive as tenants and making it harder for socially excluded applicants to gain private sector tenancies.
- **Abolishing Council Tax Benefit (CTB)** this means a large number of households in Somerset who have never had to pay towards their Council Tax will now be expected to make a contribution.

Changes to homeless duty- In addition to the current ways of discharging duty Local authorities can now fully discharge their duty into the private sector providing the tenancy is for a minimum of 12 months. This does not require the applicant’s agreement.

Changes to Housing Allocation- the Localism Act now gives local authorities more say in who is able to join the housing register. There is also a need to give certain groups higher priority for social housing. The five local authorities in Somerset are working together to update the current Homefinder Somerset Allocations Policy to take into account these changes.

Housing Need

The table below shows the number of applicants on the housing register in Somerset and the band they have been placed in. Data from 31/3/2013:-

	Emergency	Gold	Silver	Bronze	Total
Mendip District Council	8	293	1879	1320	3500
Sedgemoor District Council	3	333	2387	2084	4807
South Somerset District Council	6	515	1964	1665	4150
Taunton Deane Borough Council	1	411	1438	1739	3589
West Somerset Council		119	453	601	1173
Grand Total	18	1671	8121	7409	17219

The table below shows the bedroom size that applicants need (as at 31/3/2013):-

	1 bed	2 bed	3 bed	4 bed	5 bed	6 bed	7 bed	8 bed	Total
Mendip District Council	1989	962	430	101	16	1	1		3500
Sedgemoor District Council	2600	1398	607	170	26	6			4807
South Somerset District Council	2262	1284	467	116	18	2		1	4150
Taunton Deane Borough Council	2119	982	375	94	17	1	1		3589
West Somerset Council	677	309	146	31	8	2			1173
Grand Total	9647	4935	2025	512	85	12	2	1	17219

Affordability of Purchase- the ratio of house prices to earnings is higher in Somerset than the national average. In West Somerset house prices for first time buyers are almost nine times the average earnings making it very hard for first time buyers to get onto the property ladder.

New forms of Tenure- Registered providers are being encouraged to move away from offering tenancies for life and instead offer fixed term tenancies (normally a minimum of five years). This may lead to a slower turnover of social housing as existing tenants may be reluctant to move as they could lose their life time tenancy and it be replaced with a fixed term tenancy The aim is to reduce the gap between social tenancies and the private sector.

Changes to the way affordable housing is delivered- The Affordable Homes Programme (2011-2015) aims to increase the supply of affordable homes. However, the majority of these homes will be provided at the new affordable rent level. These changes will increase rents for new tenants. These changes also impact on registered providers to deliver the financial requirements of the new model. The increase in rent could make social housing unaffordable to some homeless households. We may see a decline in the supply of new homes meaning longer time on the housing register and an increase in the use of temporary accommodation.

Social Care Funding (previously known as supporting people)- Funding is no longer ring fenced and Somerset County Council has had to make 18% spending reduction in this area. Support will now only be available to households who have a substantial need for help.

Social Fund- The social fund has now been replaced by the Local Assistance Scheme. Unlike the social fund it does not provide cash or loans, but it can help people to get basic essentials. For example food or, essential items of bedding or furniture. Households who did not qualify for rent in advance or a bond from their Local Authority could apply to the social fund for a loan to help them secure privately rented accommodation. Without the social fund it may be harder for some households to secure privately rented accommodation.

Main causes of homelessness

The top ten causes of homelessness in Somerset are summarised in the table below (taken from P1E statistics for 2011/12)

	SSDC	MDC	SDC	TDBC	WSC	TOTAL
08a. Loss of rented or tied accommodation: Termination of assured shorthold tenancy	63	33	20	42	6	270
01. Parents no longer willing or able to accommodate	48	22	10	43	3	209
04a. Violence: Violent breakdown of relationship involving partner	23	18	7	23	10	110
03. Non-violent breakdown of relationship with partner	33	10	6	6	0	109
11. b. Other reason (e.g. homeless in emergency, sleeping rough or in hostel, returned from abroad)	24	12	6	10	1	89
02. Other relatives or friends no longer willing or able to accommodate	17	8	7	14	0	73
08b. Loss of rented or tied accommodation: Reasons other than termination of assured shorthold tenancy	7	10	2	12	9	55
06. Mortgage arrears (repossession or other loss of home)	15	3	6	5	0	52
05b. Harrassment, threats or intimidation: Other forms of harassment	6	2	2	4	0	25
07c. Rent arrears on: Private sector dwellings	4	0	1	8	0	21

The main causes of homelessness in Somerset are the ending of an Assured Shorthold Tenancy (AST) and parents/relatives/friends no longer able or willing to accommodate.

The table below shows the number households in temporary accommodation for the last three years

The table below shows the number of homeless households that have had a full homeless duty accepted to them in the last three years

The table below shows the age of accepted homeless applicants for the last 3 years. In each year the highest number of cases accepted as homeless are in the 25-44 age group.

Goal 1

Reduction and prevention of homelessness

It is crucial for the Local Authorities across Somerset to reduce and prevent homelessness. The main way of preventing homelessness is to maintain existing accommodation. If this is not possible homelessness can also be prevented by securing accommodation in the private sector, via Homefinder Somerset or by the Pathway to Independence (P2I), or Pathway for Adults (P4A).

There are many ways to reduce and prevent homelessness including:-

- Continued use of the Homeless Prevention Fund- proactive use of funds to reduce homelessness using innovative solutions
- Bond/Deposits schemes and rent in advance - helps homeless households secure privately rented accommodation
- No Second Night Out - All five authorities have signed up to deliver the Government's 'no second night out vision'. We are also part of the Avon and Somerset Rough Sleepers Group which aims to prevent rough sleeping and improve the advice given to single non-priority homeless.
- Provide support and incentives to private sector landlords to encourage them to let their properties to homeless or threatened with homelessness households.
- Ensure households threatened with homelessness are given the right advice as soon as it is needed
- Work with registered providers to maximise the number of properties let through Homefinder Somerset
- Mediation especially when relationships have broken down at home and young people are asked to leave their accommodation
- Provide good quality advice to landlords, people threatened with homelessness and the general public

Goal 2

Provision of appropriate advice, accommodation and support if crisis occurs

When a household is homeless or threatened with homelessness it is important they receive the right advice, information, support and accommodation if needed. It is also important the right groups are targeted with the right information at an early stage this includes the following steps:-

- Ensure staff have up-to-date training to give the correct advice and information to applicants
- To facilitate grants to bring empty homes back into occupation
- To facilitate grants to improve the standard of private sector accommodation
- Continue to work with Somerset County Council and the providers to deliver P2I, which includes providing educational work at schools and colleges.
- Continue to work with Somerset County Council and the provider to deliver P4A
- To support where appropriate the Family Focus Programme
- To provide a tenant accreditation scheme so households are equipped with the right skills to sustain their tenancy.

Goal 3

Maximise effective partnership working to provide cost effective and responsive services

With increasing pressures on resources in the public sector it is crucial we work with partners to provide cost effective and responsive services. We can do this by:-

- Create a protocol with the Community Mental Health Teams (CMHTs) and hospitals to ensure patients are not discharged from hospital without suitable accommodation.
- Create a protocol with the local Prisons and Police to ensure people are not released from prison/custody without suitable accommodation.
- Work with Registered Providers to maximise the creation of appropriate new properties.
- Work with Partners to give advice e.g. debt advice, mortgage repossession to households threatened with homelessness to ensure their long-term stability.
- Work with Avon and Somerset Rough Sleepers Steering Group to ensure there is adequate provision for single homeless and rough sleepers in each District.
- Work collaboratively with partners to deliver value for money services and maximise funding opportunities.
- Work with Housing Benefits to maximise the use of Discretionary Housing Payment (DHP) to prevent homelessness.
- Continue to work together to administer Homefinder Somerset
- To ensure District Planning authorities are made aware of the appropriate size and type of accommodation that is required using evidence from Homefinder Somerset.

Future Risks

Homeless Grant- the Homeless Grant is only guaranteed until 2014/15 and it is unclear if any further funding will be available after this. The loss of Homeless Grant could result in a reduction of services provided by the Local Authorities, which in turn could lead to increases in homelessness.

EDF/ Hinkley Point C- If full planning permission is granted the housing markets across Somerset will be affected. This development may have a detrimental impact on the availability of private sector accommodation. for homeless households. This may cause an increase in homelessness as private sector tenants are given notice by landlord's wishing to let their properties to EDF workers

Welfare Reform- the imminent introduction of UC could result in increase in evictions, as has been evidenced in the pilot areas which have seen large increases in rent arrears and evictions from social housing.

West Somerset District Council/ Taunton Deane Borough Council merging services-Taunton Deane Borough Council and West Somerset Council are currently working on a project that may lead to the sharing of some services across both districts. A business case is being prepared to clarify not only the financial impact of such a change but to explore the impact on service delivery and organisational issues.
