therefore vital that we had a robust strategy to maximise each income stream.

He said the Council was currently financially stable and the budget was balanced. The Council had recently formed a new Phoenix Sponsorship Board which had been formed to consider investment opportunities as part of the Council's transformation strategy to support the revenue stream.

Members thanked the Portfolio Holder for a clear presentation. They were very pleased that the Council's budget had balanced.

During the discussion that followed the Chairman of the Equalities Group said that the motion to fund changing place facilities for those with disabilities which would be put to the next meeting of full Council should be considered by the Equalities Group, whilst being mindful of the Council's finances.

The Portfolio Holder agreed to let Councillor Claire Hudson have information about the cost of funding playgrounds in Frome and who paid.

There was a discussion about the Somerset Rivers Authority and how it funded its activities.

The Leader of the Opposition said he was pleased that the budget was balanced. He confirmed that his Group would not be proposing an alternative budget.

Cabinet wished to thank the Portfolio Holder and the Officers for the report.

- (v) The Prudential Code Indicators as shown in **Appendix D**, subject to any changes made;
- (vi) That the following statement on the Minimum Revenue Provision be endorsed for 2017/18:

“The Council will continue to make provision at least equal to an annual 4% reducing balance method on all capital expenditure covered by government supported borrowing approvals.

Provision for the capital expenditure within the proposed Annual Service Capital Programme will be based on the nominal life of the asset delivered.

Provision for the capital expenditure within any proposed Commercial Investment Capital Programme will be based upon one the following options:

- a. the nominal life of the asset delivered (the default position)
- b. any reduction in the valuation of the asset (assessed annually) being recovered over the remaining life of associated debt financing the investment.

If in subsequent years the value increases, the revised MRP would remain leading to excess provision set aside that can be used as a capital receipt enabling the council to invest further or reduce the overall capital financing costs”

- (i) The overall Revenue Budget for 2017/18 of **£14,277,350.00** after taking into consideration all

	<p>expenditure. Part of the treasury management operation was to ensure that short term cash flow was adequately planned, with cash being available when it was needed. Surplus monies were invested in low risk counterparties or instruments commensurate with the Council's low risk appetite, providing adequate liquidity initially before considering investment return.</p> <p>The second main function of the treasury management service was the funding of the Council's capital plans. These capital plans provided a guide to the borrowing need of the Council, essentially the longer term cash flow planning, to ensure that the Council could meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any debt previously drawn may be restructured to meet Council risk or cost objectives.</p> <p>RESOLVED</p> <p>The Leader and Cabinet agree and recommend to Full Council:</p> <ol style="list-style-type: none"> 1. The strategy as laid out in the report including only borrowing short term to cover shortfalls in cashflow; 2. The prudential guidelines as laid out in the report; 3. To approve Minimum Revenue Provision (MRP) policy included in this report.
