The Somerset Strategic Housing Framework comprises the housing strategy and district based action plans for the county of Somerset. The current Framework was published in 2013 and is now in need of review. To begin this process we have produced housing market profiles for each district, together with a county-wide housing market profile. These profiles highlight key facts about the current housing market including relevant health information. They also highlight recent achievements, current opportunities and immediate challenges. Additional background information can be found on the Council’s website.

Opportunities

- Creation of our own **private sector leasing scheme** may increase access to the private rented sector for some of our most urgent cases
- The Council will be investing directly in **new market housing** which, in turn, will produce more affordable housing
- We can build capacity for more **community led schemes**, particularly in **rural areas**

Challenges

- Housing Association **property disposal in rural areas**
- **Single people under 35** affected by the short supply of **1 bedroom homes**
- **HMO restrictions** (Article 4)
- **Delays** in construction at key sites due to market financial changes
- We expect the **private rented sector** to become both **more expensive** and **harder to access** as the effects of the Hinkley Point C construction phase ripple out across Somerset
